### Access Ramp, Drive, and Parking Area

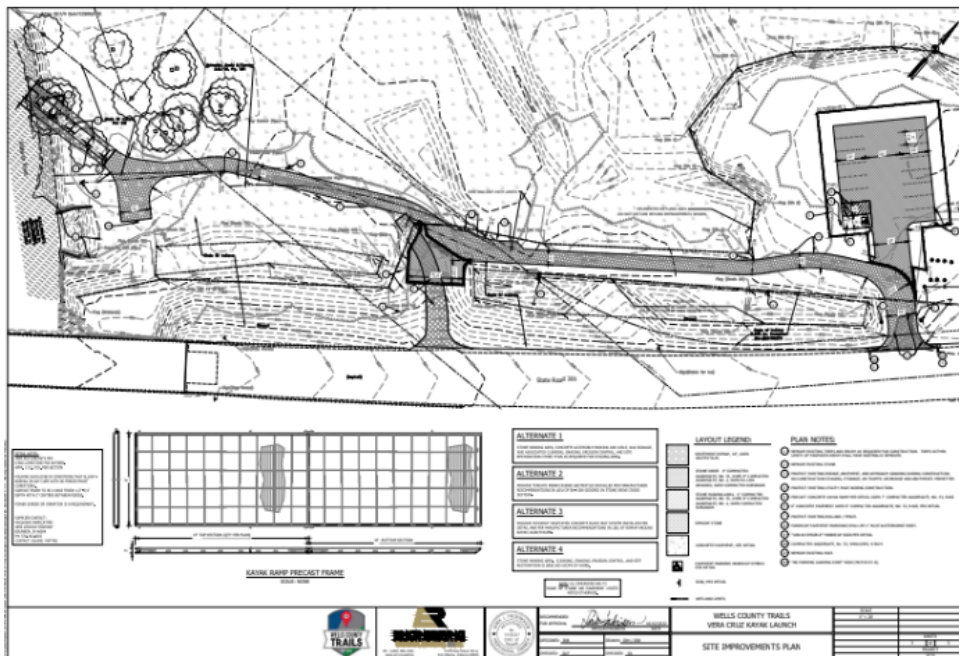

### Kayaking is Growing Fast in Wells County!

With your help we can greatly improve access to the Wabash River in Wells County. The goal is to break the river into 3 to 4 hour floats between launch points. This project makes that possible from Linn Grove to Vera Cruz and Vera Cruz to Bluffton.

**Wells County Trails**

## Project Details

Wells County Trails, the Town of Vera Cruz, and Wells County Commissioners have partnered together to install a paddlesports launch site on the northwest side of the SR 301 bridge in Vera Cruz, Indiana. Wells County Trails contracted with Engineering Resources, Miller Land Surveying, and Three Rivers Wetland Consultants to develop a plan and to obtain the proper permitting needed to develop this project. The project when fully completed will include an entry ramp to the river, a vehicle unloading area, driveway, and parking area. The goal of the project is to provide safe river access to the river at this key location between Linn Grove and Bluffton.
